

Global Connections and Exchange: My Community, Our Earth

# 2014 Youth TechCamps

• APPLICATION DEADLINE JANUARY 10, 2014 • BOLIVIA • PANAMA • SOUTH AFRICA •

- ★ For secondary students ages 15 to 18
- ★ Experience 10 days of training and cultural exchange
- ★ Learn more about using mapping technologies like GIS
- ★ Design a community team project with international youth
- ★ Collaborate online with geotechnologies for climate change

This program aims to provide opportunities for youth to learn more about online geotechnologies and how to apply them in service to their communities, while gaining a deeper understanding about different places and cultures of the world.

It is conducted by the Association of American Geographers (AAG) with funding and support from the US Department of State Bureau of Educational and Cultural Affairs, Youth Programs Division. The MyCOE partnership has actively led more than ten years of youth leadership programs, finding solutions to sustainable development challenges in local

communities using geographic concepts and tools, while connecting with each other globally. FOR DETAILS AND TO APPLY:

AAG serves as Secretariat for the MyCOE Partnership, which includes US Department of State, UNEP, National Geographic Society, Esri, USDA, USAID, NASA, USGS, and many other organizations. [www.mycoe.org](http://www.mycoe.org)
